

REMARKS

Reconsideration of the application is respectfully requested.

In the Office Action, it is indicated that the claims are allowable except for the objection to potential confusion regarding the different types of registers claimed. Although Applicants respectfully submit that the claims, prior to this amendment, are sufficiently clear, this amendment makes the suggestions made by the Examiner regarding the different registers that have been claimed. In particular, the term *control* and *configuration* have been inserted where appropriate, to confirm the meaning of the claims. Applicants respectfully note that none of these amendments are needed to narrow the scope of any claim but should only be considered as clarifying the original claim language.

CONCLUSION

In view of the foregoing, it is believed that all claims now pending patentably define the subject invention over the prior art of record and are in condition for allowance and such action is earnestly solicited at the earliest possible date.

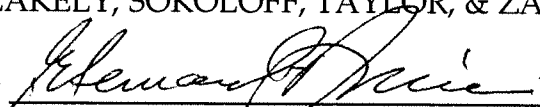

If necessary, the Commissioner is hereby authorized in this, concurrent and future replies, to charge payment or credit any overpayment to Deposit Account No. 02-2666 for any additional fees required under 37 C.F.R. §§ 1.16 or 1.17, particularly extension of time fees.

Respectfully submitted,
